

Barrys Angel's Albany Homes fly's again!

Barry Angel and his planning team last night savoured success yet again, after Tower Hamlets planning committee approved a scheme for 141 residential units in Three Colts Lane, Bethnal Green, London E3. The scheme supported by both councillors and community was approved with just 32% of affordable housing, the lowest percentage granted by Tower Hamlets Council in over 4 years! Last night's decision follows the successful application for a 154 unit development in Tanner Street, Southwark won by Albany Homes in October 2010.

Albany Homes previously stunned the planning community when they achieved residential consent for the famous Jack Straws Castle Pub on Hampstead Heath London's highest location.
